

Did you know?

What is ReachDeck?

On our new and improved website we use ReachDeck which is an all-in-one digital inclusion solution. It helps make our online content accessible and usable to everyone.

If you click the 'Human Icon' below this will allow you to select to read the screen/page aloud, translate the page and also simplify information.

This is a reminder that this service is available and if families can also be reminded of this.

Safety Alert:

Reporting burns relating to chlorhexidine

Chlorhexidine used for skin cleaning can cause injury and burns to neonatal skin. As well as local incident review, a Yellow Card must be completed should this occur.

[Link: Yellow Card | Making medicines and medical devices safer](#)

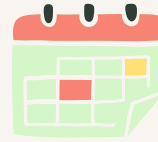

NNAP Data Assurance Period

NNAP are encouraging units to clean their 2024 data using the Restricted Access Dashboard (RAD). If BadgerNet fields were completed prior to Monday 10th February, you will be able to view the resolution of 'missing data' cases on the RAD from Wednesday 12th February.

The final cleaning deadline for 2024 annual report data is Friday 14th March 2025. After this date, NNAP will take a final cut of the data for annual report analysis.

For more information, please click [here](#)

KEY HEADLINES ACROSS OUR NETWORK

Time needed: 15 minutes

The second [Black Maternity Experience Survey 2025](#), which launched on 5th February 2025.

This survey is designed for individuals who identify as Black or Black mixed-heritage, are currently pregnant, have been pregnant, or have given birth since July 2021. To fill in the survey please click [here](#)

The National LMNS are planning an event about learning and sharing event for Tuesday 18th March, 10:00 – 1:00 (via Teams)

This will be an opportunity to hear best about successful projects from other systems and includes breakout sessions. Agenda to follow.

This event is suitable for everyone working in the LMNS including those in providers, MNVPs, ODNs and Regional colleagues.

You can register for this Teams event here: [LMNS Learning and Sharing Event | NHS England Events](#)

JOB OPPORTUNITY

Band 7 Ward Manager in St Mary's ORC NICU, 37.5 Hours, Manchester

More details can be found by following this [link](#)

A new infographic on spotting jaundice in black and brown babies has been shared by the NW regional maternity team. Please share widely with neonatal and midwifery colleagues. The NHS Race and Health Observatory are working on creating a similar resource for parents and families. Click [here](#) for more information.
