

Did you know?

Members needed to join Neonatal Surgical Forum

BAPM and BAPS are seeking members to join a pilot forum to improve standards in neonatal surgery.

The Neonatal Surgical Forum (NSF) will be a national multi-professional group that will share expertise, coordinate national initiatives and answer queries. The initial pilot will run from June 2025-June 2026 with plans to extend the group if successful. Plans for the first 12 months include the development and publication of a research priority list, running a neonatal surgical webinar, contributing a framework on NEC and development of a work plan for the next steps of the group.

For more information on how to apply please follow this [link](#).

Following the shortage of Smiths Medical ETT, please see [link](#) for ETT alternative (size 3.5 unavailable at present)

An exciting webinar is coming up, 'New Pathway for Investigating Inherited Cardiac Conditions and how this relates to SUDIC'

In this NCMD webinar, Professor Elijah Behr from St George's Hospital, London, and Dr. Joanna Garstang, Consultant Community Paediatrician and Designated Doctor for Child Death in Birmingham and Solihull, will discuss the newly commissioned pathway for investigating deaths that may be due to Inherited Cardiac Conditions (ICC), and how this relates to the Joint Agency Response and Sudden Unexpected Death in Childhood (SUDIC) investigations. Many sudden, unexpected child deaths may be due to cardiac disease, and the new pathway offers families rapid access to specialist assessment.

The session is aimed at ICC attendees and Child Death Review Professionals, particularly CDR specialist nurses, Designated Doctors for Child Death and SUDIC paediatricians. Click [here](#) to register

Invite to Antenatal Counselling Webinars
Health Innovation Oxford & Thames Valley are running a couple of antenatal counselling webinars via teams. For further info please contact Eileen.dudley@healthinnovationoxford.org
