Lets observe the below dates and acknowledge them with our families:

National Walking Month (May)

Spending time outdoors can support wellbeing during and after a neonatal stay.

Share a Story Month (May)

Reading or talking to your baby supports bonding and early brain development.

Maternal Mental Health Week (4th to 10th May)

Raising awareness and highlighting support available for parents emotional wellbeing.

Deaf Awareness Week (4th to 10th May)

Promoting, understanding and inclusion for deaf babies, children and families.

International Bereaved Mother's Day (3rd May)

Holding space for mothers who have experienced loss.

World Hand Hygiene Day (5th May)

Hand hygiene is one of the most effective ways to protect babies on the neonatal unit.

Mental Health Awareness Week (11th to 17th May)

Continuing to raise awareness and share support for families and staff.

International Nurses Day (12th May)

Celebrating the dedication and compassion of neonatal nurses.

Updates On Drug Safety Insulin in Neonatal Units

The National Neonatal Drug Safety Group has been involved in developing two pieces of guidance regarding insulin:

- [Laboratory handling of insulin requests in the investigation of hypoglycaemia](#)

Units should discuss the recommendations in this report with local laboratory staff.

- [GIRFT Neonatology: Guide to safe insulin use](#)

Units are advised to bring these recommendations to the attention of senior clinical, managerial, pharmacy and governance personnel to ensure compliance with the guidance in your neonatal unit.
